# Fund Performance

## Performance summary

### Fund vs. Indexes

Cumulative total returns, 10/31/09 to 4/30/10, at net asset value (NAV). Performance shown does not include applicable contingent deferred sales charges (CDSC) or front-end sales charges, which would have reduced performance.

Class A Shares*	16.83%
Class B Shares*	16.61
Class C Shares*	16.61
Class R Shares*	16.89
Class Y Shares*	17.02
Investor Class Shares*	17.04
Institutional Class Shares*	17.32
S&P 500 Index▼ (Broad Market Index)	15.66
Russell 1000 Value Index▼ (Style-Specific Index)	17.77
Lipper Large-Cap Value Funds Index▼ (Peer Group Index)	14.54

▼Lipper Inc.

\*Performance includes litigation proceeds. Had these proceeds not been received, these returns would have been lower.

The **S&P 500® Index** is an unmanaged index considered representative of the U.S. stock market.

The **Russell 1000® Value Index** is an unmanaged index considered representative of large-cap value stocks. The Russell 1000 Value Index is a trademark/service mark of the Frank Russell Co. Russell® is a trademark of the Frank Russell Co.

The **Lipper Large-Cap Value Funds Index** is an unmanaged index considered representative of large-cap value funds tracked by Lipper.

The Fund is not managed to track the performance of any particular index, including the indexes defined here, and consequently, the performance of the Fund may deviate significantly from the performance of the indexes.

A direct investment cannot be made in an index. Unless otherwise indicated, index results include reinvested dividends, and they do not reflect sales charges or fund expenses. Performance of the peer group reflects fund expenses; performance of a market index does not.

**Institutional Class shares** inceptioned on **April 30, 2004**. Performance shown prior to that date is that of **Class A shares** and includes the 12b-1 fees applicable to **Class A shares**. **Class A shares** performance reflects any applicable fee waivers or expense reimbursements.

The performance data quoted represent past performance and cannot guarantee comparable future results; current performance may be lower or higher. Please visit [invesco.com/performance](http://invesco.com/performance) for the most recent month-end performance. Performance figures reflect reinvested distributions, changes in net asset

value and the effect of the maximum sales charge unless otherwise stated. Performance figures do not reflect deduction of taxes a shareholder would pay on Fund distributions or sale of Fund shares. Investment return and principal value will fluctuate so that you may have a gain or loss when you sell shares.

The total annual Fund operating expense ratio set forth in the most recent Fund prospectus as of the date of this report for **Class A, Class B, Class C, Class R, Class Y, Investor Class and Institutional Class shares** was **1.66%, 2.41%, 2.41%, 1.91%, 1.41%, 1.66% and 0.82%**, respectively. The expense ratios presented above may vary from the expense ratios presented in other sections of this report that are based on expenses incurred during the period covered by this report.

**Class A share** performance reflects the maximum 5.50% sales charge, and **Class B and Class C share** performance reflects the applicable contingent deferred sales charge (CDSC) for the period involved. The CDSC on **Class B shares** declines from 5% beginning at the time of purchase to 0% at the beginning of the seventh year. The CDSC on **Class C shares** is 1% for the first year after purchase. **Class R, Class Y, Investor Class and Institutional class shares** do not have a front-end sales charge or a CDSC; therefore, performance is at net asset value.

The performance of the Fund's share classes will differ primarily due to different sales charge structures and class expenses.

## Letters to Shareholders

Bruce Crockett

Dear Fellow Shareholders:

By all accounts, last year was a challenging time for all of us. Although the economy and financial markets whipsawed us, the final months of the decade concluded with many of us feeling somewhat more optimistic about 2010.

Perhaps the most valuable takeaway from last year is the manner in which it underscored the importance of adopting a long-term, appropriately diversified investment strategy.

Please be assured that your Board continues to oversee the Invesco Funds with a strong sense of responsibility for your savings and your trust. It might also interest you to know that the Board currently has five committees whose members exercise oversight to maintain the Invesco Funds' "Investor First" orientation. As always, we seek to manage costs and enhance performance in ways that put your interests first.

To that end, some of you may have seen that Invesco is assuming the management of the Van Kampen family of mutual funds as well as Morgan Stanley's retail funds. We view this addition as an excellent opportunity to provide you access to an even broader range of funds under the Invesco umbrella.

As always, you're welcome to contact me at [bruce@brucecrockett.com](mailto:bruce@brucecrockett.com) with any questions or concerns you may have. We look forward to representing you and serving you in the coming year.

Sincerely,

A handwritten signature in dark ink, appearing to read "Bruce L. Crockett".

Bruce L. Crockett  
Independent Chair, Invesco Funds Board of Trustees

Philip Taylor

Dear Shareholders:

During the six months covered by this report, the U.S. economy strengthened, and – in the third quarter of 2009 – ended its year-long contraction and began growing again. Likewise, economies around the world recovered and major U.S. and global stock market indexes rallied impressively.

### **Timely communication**

Our website, [invesco.com](http://invesco.com), provides timely market commentary, investor education information and sector updates. The Investment Perspectives articles featured on our home page are written by Invesco's investment professionals and cover a wide range of topics that are updated regularly. I invite you to read them.

At [invesco.com](http://invesco.com) you also can access your Fund's latest quarterly commentary. Simply click on Mutual Funds inside the Financial Products box. Then, in the Fund Information box, click on

Quarterly Commentary and select your Fund.

Also on our website, you'll find a commentary from me that discusses the name change we made on April 30 – from Invesco Aim to Invesco. Some of the changes related to this event include all AIM funds being renamed Invesco funds. (It's important to note that the funds' investment strategies and objectives have not changed.) For more information about the change, please read the shareholder Q&A on the account balance page at [invesco.com](http://invesco.com).

### **Taking our business forward**

Invesco's acquisition of Morgan Stanley's retail asset management business, including Van Kampen Investments, was completed on June 1, 2010. Our two companies have similar investment philosophies and cultures, as well as complementary investment expertise. I believe this combination represents the next step in our company's evolution – and will allow us to better serve you through greater efficiencies and cost savings, a broader range of investment options, and a continued commitment to investment excellence, with complementary portfolio management expertise.

If you have questions about your account, please contact one of our client services representatives at 800 959 4246. If you have a question or comment for me, please email me at [phil@invesco.com](mailto:phil@invesco.com). Thank you for investing with us.

Sincerely,

### NOTE 1—Significant Accounting Policies

Invesco Large Cap Basic Value Fund, formerly AIM Large Cap Basic Value Fund, (the “Fund”) is a series portfolio of AIM Equity Funds (Invesco Equity Funds), formerly AIM Equity Funds, (the “Trust”). The Trust is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end series management investment company consisting of eight separate portfolios, each authorized to issue an unlimited number of shares of beneficial interest. The assets, liabilities and operations of each portfolio are accounted for separately. Information presented in these financial statements pertains only to the Fund. Matters affecting each portfolio or class will be voted on exclusively by the shareholders of such portfolio or class.

The Fund’s investment objective is long-term growth of capital.

The Fund currently consists of seven different classes of shares: Class A, Class B, Class C, Class R, Class Y, Investor Class and Institutional Class. Investor Class shares of the Fund are offered only to certain grandfathered investors. Class A shares are sold with a front-end sales charge unless certain waiver criteria are met and under certain circumstances load waived shares may be subject to contingent deferred sales charges (“CDSC”). Class B shares and Class C shares are sold with a CDSC. Class R, Class Y, Investor Class and Institutional Class shares are sold at net asset value. Under certain circumstances, Class R shares are subject to a CDSC. Effective April 1, 2010, Class R shares are no longer subject to a CDSC. Generally, Class B shares will automatically convert to Class A shares on or about the month-end which is at least eight years after the date of purchase.

The following is a summary of the significant accounting policies followed by the Fund in the preparation of its financial statements.

**A. Security Valuations** — Securities, including restricted securities, are valued according to the following policy.

A security listed or traded on an exchange (except convertible bonds) is valued at its last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded, or lacking any sales or official closing price on a particular day, the security may be valued at the closing bid price on that day. Securities traded in the over-the-counter market are valued based on prices furnished by independent pricing services or market makers. When such securities are valued by an independent pricing service they may be considered fair valued. Futures contracts are valued at the final settlement price set by an exchange on which they are principally traded. Listed options are valued at the mean between the last bid and ask prices from the exchange on which they are principally traded. Options not listed on an exchange are valued by an independent source at the mean between the last bid and ask prices. For purposes of determining net asset value per share, futures and option contracts generally are valued 15 minutes after the close of the customary trading session of the New York Stock Exchange (“NYSE”).

Investments in open-end and closed-end registered investment companies that do not trade on an exchange are valued at the end of day net asset value per share. Investments in open-end and closed-end registered investment companies that trade on an exchange are valued at the last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded.

Debt obligations (including convertible bonds) and unlisted equities are fair valued using an evaluated quote provided by an independent pricing service. Evaluated quotes provided by the pricing service may be determined without exclusive reliance on quoted prices, and may reflect appropriate factors such as institution-size trading in similar groups of securities, developments related to specific securities, dividend rate, yield, quality, type of issue, coupon rate, maturity, individual trading characteristics and other market data. Short-term obligations, including commercial paper, having 60 days or less to maturity are recorded at amortized cost which approximates value. Debt securities are subject to interest rate and credit risks. In addition, all debt securities involve some risk of default with respect to interest and/or principal payments.

Foreign securities (including foreign exchange contracts) are converted into U.S. dollar amounts using the applicable exchange rates as of the close of the NYSE. If market quotations are available and reliable for foreign exchange traded equity securities, the securities will be valued at the market quotations. Because trading hours for certain foreign securities end before the close of the NYSE, closing market quotations may become unreliable. If between the time trading ends on a particular security and the close of the customary trading session on the NYSE, events occur that are significant and make the closing price unreliable, the Fund may fair value the security. If the event is likely to have affected the closing price of the security, the security will be valued at fair value in good faith using procedures approved by the Board of Trustees. Adjustments to closing prices to reflect fair value may also be based on a screening process of an independent pricing service to indicate the degree of certainty, based on historical data, that the closing price in the principal market where a foreign security trades is not the current value as of the close of the NYSE. Foreign securities meeting the approved degree of certainty that the price is not reflective of current value will be priced at the indication of fair value from the independent pricing service. Multiple factors may be considered by the independent pricing service in determining adjustments to reflect fair value and may include information relating to sector indices, American Depositary Receipts and domestic and foreign index futures. Foreign securities may have additional risks including exchange rate changes, potential for sharply devalued currencies and high inflation, political and economical upheaval, the relative lack of issuer information, relatively low market liquidity and the potential lack of strict financial and accounting controls and standards.

Securities for which market prices are not provided by any of the above methods may be valued based upon quotes furnished by independent sources. The last bid price may be used to value equity securities. The mean between the last bid and asked prices is used to value debt obligations, including Corporate Loans.

Securities for which market quotations are not readily available or are unreliable are valued at fair value as determined in good faith by or under the supervision of the Trust's officers following procedures approved by the Board of Trustees. Issuer specific events, market trends, bid/ask quotes of brokers and information providers and other market data may be reviewed in the course of making a good faith determination of a security's fair value.

Valuations change in response to many factors including the historical and prospective earnings of the issuer, the value of the issuer's assets, general economic conditions, interest rates, investor perceptions and market liquidity. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

**B. Securities Transactions and Investment Income** — Securities transactions are accounted for on a trade date basis. Realized gains or losses on sales are computed on the basis of specific identification of the securities sold. Interest income is recorded on the accrual basis from settlement date. Dividend income is recorded on the ex-dividend date.

The Fund may periodically participate in litigation related to Fund investments. As such, the Fund may receive proceeds from litigation settlements. Any proceeds received are included in the Statement of Operations as realized gain/loss for investments no longer held and as unrealized gain/loss for investments still held.

Brokerage commissions and mark ups are considered transaction costs and are recorded as an increase to the cost basis of securities purchased and/or a reduction of proceeds on a sale of securities. Such transaction costs are included in the determination of realized and unrealized gain (loss) from investment securities reported in the Statement of Operations and the Statement of Changes in Net Assets and the realized and unrealized net gains (losses) on securities per share in the Financial Highlights. Transaction costs are included in the calculation of the Fund's net asset value and, accordingly, they reduce the Fund's total returns. These transaction costs are not considered operating expenses and are not reflected in net investment income reported in the Statement of Operations and Statement of Changes in Net Assets, or the net investment income per share and ratios of expenses and net investment income reported in the Financial Highlights, nor are they limited by any expense limitation arrangements between the Fund and the investment adviser.

The Fund allocates income and realized and unrealized capital gains and losses to a class based on the relative net assets of each class.

**C. Country Determination** — For the purposes of making investment selection decisions and presentation in the Schedule of Investments, the investment adviser may determine the country in which an issuer is located and/or credit risk exposure based on various factors. These factors include the laws of the country under which the issuer is organized, where the issuer maintains a principal office, the country in which the issuer derives 50% or more of its total revenues and the country that has the primary market for the issuer's securities, as well as other criteria. Among the other criteria that may be evaluated for making this determination are the country in which the issuer maintains 50% or more of its assets, the type of security, financial guarantees

and enhancements, the nature of the collateral and the sponsor organization. Country of issuer and/or credit risk exposure has been determined to be the United States of America, unless otherwise noted.

- D. Distributions** — Distributions from income and net realized capital gain, if any, are generally paid annually and recorded on ex-dividend date. The Fund may elect to treat a portion of the proceeds from redemptions as distributions for federal income tax purposes.
- E. Federal Income Taxes** — The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code necessary to qualify as a regulated investment company and to distribute substantially all of the Fund's taxable earnings to shareholders. As such, the Fund will not be subject to federal income taxes on otherwise taxable income (including net realized capital gain) that is distributed to shareholders. Therefore, no provision for federal income taxes is recorded in the financial statements.

The Fund files tax returns in the U.S. Federal jurisdiction and certain other jurisdictions. Generally the Fund is subject to examinations by such taxing authorities for up to three years after the filing of the return for the tax period.

- F. Expenses** — Fees provided for under the Rule 12b-1 plan of a particular class of the Fund are charged to the operations of such class. Transfer agency fees and expenses and other shareholder recordkeeping fees and expenses attributable to the Institutional Class are charged to such class. Transfer agency fees and expenses and other shareholder recordkeeping fees and expenses relating to all other classes are allocated among those classes based on relative net assets. All other expenses are allocated among the classes based on relative net assets.
- G. Accounting Estimates** — The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period including estimates and assumptions related to taxation. Actual results could differ from those estimates by a significant amount. In addition, the Fund monitors for material events or transactions that may occur or become known after the period-end date and before the date the financial statements are released to print.
- H. Indemnifications** — Under the Trust's organizational documents, each Trustee, officer, employee or other agent of the Trust is indemnified against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts, including the Fund's servicing agreements, that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification claims is considered remote.
- I. Foreign Currency Translations** — Foreign currency is valued at the close of the NYSE based on quotations posted by banks and major currency dealers. Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at date of valuation. Purchases and sales of portfolio securities (net of foreign taxes withheld on disposition) and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for the portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. The combined results of changes in foreign exchange rates and the fluctuation of market prices on investments (net of estimated foreign tax withholding) are included with the net realized and unrealized gain or loss from investments in the Statement of Operations. Reported net realized foreign currency gains or losses arise from (1) sales of foreign currencies, (2) currency gains or losses realized between the trade and settlement dates on securities transactions, and (3) the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign currency gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal period end, resulting from changes in exchange rates.

The Fund may invest in foreign securities which may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable.

- J. Foreign Currency Contracts** — The Fund may enter into foreign currency contracts to manage or minimize currency or exchange rate risk. The Fund may also enter into foreign currency contracts for the purchase or sale of a security denominated in a foreign currency in order to "lock in" the U.S. dollar price of that security. A foreign currency contract is an obligation to purchase or sell a specific currency for an agreed-upon price at a future date. The use of foreign currency contracts does not eliminate fluctuations in the price of the underlying securities the Fund owns or intends to acquire but establishes a rate of exchange in advance. Fluctuations in the value of these contracts are measured by the difference in the contract date and reporting date exchange rates and are recorded as unrealized appreciation (depreciation) until the contracts are closed. When the contracts are closed, realized gains (losses) are recorded. Realized and unrealized gains (losses) on the contracts are included in the Statement of Operations. The primary risks associated with foreign currency contracts include failure of the counterparty to meet the terms of the contract and the value of the foreign currency changing unfavorably. These risks may be in excess of the amounts reflected in the Statement of Assets and Liabilities.

## NOTE 2—Advisory Fees and Other Fees Paid to Affiliates

The Trust has entered into a master investment advisory agreement with Invesco Advisers, Inc. (the "Adviser" or "Invesco"). Under the terms of the investment advisory agreement, the Fund pays an advisory fee to the Adviser based on the annual rate of the Fund's average daily net assets as follows:

Average Net Assets	Rate
First \$1 billion	0.60%
Next \$1 billion	0.575%
Over \$2 billion	0.55%

Under the terms of a master sub-advisory agreement between the Adviser and each of Invesco Asset Management Deutschland GmbH, Invesco Asset Management Limited, Invesco Asset Management (Japan) Limited, Invesco Australia Limited, Invesco Hong Kong Limited, Invesco Senior Secured Management, Inc. and Invesco Trimark Ltd. (collectively, the "Affiliated Sub-Advisers") the Adviser, not the Funds, may pay 40% of the fees paid to the Adviser to any such

Affiliated Sub-Adviser(s) that provide discretionary investment management services to each Fund based on the percentage of assets allocated to such Sub-Adviser(s).

On December 31, 2009, Invesco Aim Advisors, Inc., Invesco Aim Capital Management, Inc., Invesco Aim Private Asset Management, Inc. and Invesco Global Asset Management (N.A.), Inc. merged into Invesco Institutional (N.A.), Inc. and the consolidated adviser firm was renamed Invesco Advisers, Inc.

The Adviser has contractually agreed, through at least February 28, 2011, to waive advisory fees and/or reimburse expenses of all shares to the extent necessary to limit total annual fund operating expenses after fee waiver (excluding certain items discussed below) of Class A, Class B, Class C, Class R, Class Y, Investor Class and Institutional Class shares to 2.00%, 2.75%, 2.75%, 2.25%, 1.75%, 2.00% and 1.75%, respectively, of average daily net assets. In determining the Adviser's obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account, and could cause the total annual fund operating expenses after fee waiver to exceed the numbers reflected above: (1) interest; (2) taxes; (3) dividend expense on short sales; (4) extraordinary or non-routine items; and (5) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement. The Board of Trustees or Invesco may terminate the fee waiver arrangement at any time. The Adviser did not waive fees and/or reimburse expenses during the period under this limitation.

Further, the Adviser has contractually agreed, through at least June 30, 2010, to waive the advisory fee payable by the Fund in an amount equal to 100% of the net advisory fees the Adviser receives from the affiliated money market funds on investments by the Fund of uninvested cash in such affiliated money market funds.

For the six months ended April 30, 2010, the Adviser waived advisory fees of \$3,733.

At the request of the Trustees of the Trust, Invesco Ltd. agreed to reimburse expenses incurred by the Fund in connection with market timing matters in the Invesco Funds, which may include legal, audit, shareholder reporting, communications and trustee expenses. These expenses along with the related expense reimbursement are included in the Statement of Operations. For the six months ended April 30, 2010, Invesco Ltd. reimbursed expenses of the Fund in the amount of \$224.

The Trust has entered into a master administrative services agreement with Invesco pursuant to which the Fund has agreed to pay Invesco for certain administrative costs incurred in providing accounting services to the Fund. For the six months ended April 30, 2010, expenses incurred under the agreement are shown in the Statement of Operations as administrative services fees.

The Trust has entered into a transfer agency and service agreement with Invesco Investment Services, Inc. ("IIS") pursuant to which the Fund has agreed to pay IIS a fee for providing transfer agency and shareholder services to the Fund and reimburse IIS for certain expenses incurred by IIS in the course of providing such services. IIS may make payments to intermediaries that provide omnibus account services, sub-accounting services and/or networking services. All fees payable by IIS to intermediaries that provide omnibus account services or sub-accounting are charged back to the Fund, subject to certain limitations approved by the Trust's Board of Trustees. For the six months ended April 30, 2010, expenses incurred under the agreement are shown in the Statement of Operations as transfer agent fees.

The Trust has entered into master distribution agreements with Invesco Distributors, Inc. ("IDI") to serve as the distributor for the Class A, Class B, Class C, Class R, Class Y, Investor Class and Institutional Class shares of the Fund. The Trust has adopted plans pursuant to Rule 12b-1 under the 1940 Act with respect to the Fund's Class A, Class B, Class C, Class R and Investor Class shares (collectively the "Plans"). The Fund, pursuant to the Plans, pays IDI compensation at the annual rate of 0.25% of the Fund's average daily net assets of Class A shares, 1.00% of the average daily net assets of Class B and Class C shares, 0.50% of the average daily net assets of Class R shares and 0.25% of the average daily net assets of Investor Class shares. Of the Plan payments, up to 0.25% of the average daily net assets of each class of shares may be paid to furnish continuing personal shareholder services to customers who purchase and own shares of such classes. Any amounts not paid as a service fee under the Plans would constitute an asset-based sales charge. Rules of the Financial Industry Regulatory Authority ("FINRA") impose a cap on the total sales charges, including asset-based sales charges that may be paid by any class of shares of the Fund. For the six months ended April 30, 2010, expenses incurred under the Plans are shown in the Statement of Operations as distribution fees.

Front-end sales commissions and CDSC (collectively the "sales charges") are not recorded as expenses of the Fund. Front-end sales commissions are deducted from proceeds from the sales of Fund shares prior to investment in Class A shares of the Fund. CDSC are deducted from redemption proceeds prior to remittance to the shareholder. During the six months ended April 30, 2010, IDI advised the Fund that IDI retained \$7,469 in front-end sales commissions from the sale of Class A shares and \$0, \$8,183 and \$93 from Class A, Class B and Class C shares, respectively, for CDSC imposed on redemptions by shareholders.

Certain officers and trustees of the Trust are officers and directors of Invesco, IIS and/or IDI.

### **NOTE 3—Additional Valuation Information**

Generally Accepted Accounting Principles ("GAAP") defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, under current market conditions. GAAP establishes a hierarchy that prioritizes the inputs to valuation methods giving the highest priority to readily available unadjusted quoted prices in an active market for identical assets (Level 1) and the lowest priority to significant unobservable inputs (Level 3) generally when market prices are not readily available or are unreliable. Based on the valuation inputs, the securities or other investments are tiered into one of three levels. Changes in valuation methods may result in transfers in or out of an investment's assigned level:

Level 1 — Prices are determined using quoted prices in an active market for identical assets.

Level 2 — Prices are determined using other significant observable inputs. Observable inputs are inputs that other market participants may use in pricing a security. These may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk, yield curves, loss severities, default rates, discount rates, volatilities and others.

Level 3 — Prices are determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable (for example, when there is little or no market activity for an investment at the end of the period), unobservable inputs may be used. Unobservable inputs reflect the Fund's own assumptions about the factors market participants would use in determining fair value of the securities or instruments and would be based on the best available information.

The following is a summary of the tiered valuation input levels, as of April 30, 2010. The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

	Level 1	Level 2	Level 3	Total
Equity Securities	\$166,366,790	\$8,461,170	\$—	\$174,827,960

#### NOTE 4—Security Transactions with Affiliated Funds

The Fund is permitted to purchase or sell securities from or to certain other Invesco Funds under specified conditions outlined in procedures adopted by the Board of Trustees of the Trust. The procedures have been designed to ensure that any purchase or sale of securities by the Fund from or to another fund or portfolio that is or could be considered an affiliate by virtue of having a common investment adviser (or affiliated investment advisers), common Trustees and/or common officers complies with Rule 17a-7 of the 1940 Act. Further, as defined under the procedures, each transaction is effected at the current market price. Pursuant to these procedures, for the six months ended April 30, 2010, the Fund engaged in securities purchases of \$2,512,608.

#### NOTE 5—Expense Offset Arrangement(s)

The expense offset arrangement is comprised of transfer agency credits which result from balances in Demand Deposit Accounts (DDA) used by the transfer agent for clearing shareholder transactions. For the six months ended April 30, 2010, the Fund received credits from this arrangement, which resulted in the reduction of the Fund's total expenses of \$1,436.

#### NOTE 6—Trustees' and Officers' Fees and Benefits

"Trustees' and Officers' Fees and Benefits" include amounts accrued by the Fund to pay remuneration to certain Trustees and Officers of the Fund. Trustees have the option to defer compensation payable by the Fund, and "Trustees' and Officers' Fees and Benefits" also include amounts accrued by the Fund to fund such deferred compensation amounts. Those Trustees who defer compensation have the option to select various Invesco Funds in which their deferral accounts shall be deemed to be invested. Finally, certain current Trustees are eligible to participate in a retirement plan that provides for benefits to be paid upon retirement to Trustees over a period of time based on the number of years of service. The Fund may have certain former Trustees who also participate in a retirement plan and receive benefits under such plan. "Trustees' and Officers' Fees and Benefits" include amounts accrued by the Fund to fund such retirement benefits. Obligations under the deferred compensation and retirement plans represent unsecured claims against the general assets of the Fund.

During the six months ended April 30, 2010, the Fund paid legal fees of \$1,064 for services rendered by Kramer, Levin, Naftalis & Frankel LLP as counsel to the Independent Trustees. A member of that firm is a Trustee of the Trust.

#### NOTE 7—Cash Balances

The Fund is permitted to temporarily carry a negative or overdrawn balance in its account with The State Street Bank and Trust Company, the custodian bank. To compensate the custodian bank for such overdrafts, the overdrawn Fund may either (i) leave funds as a compensating balance in the account so the custodian bank can be compensated by earning the additional interest; or (ii) compensate by paying the custodian bank at a rate agreed upon by the custodian bank and Invesco, not to exceed the contractually agreed upon rate.

#### NOTE 8—Tax Information

The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Reclassifications are made to the Fund's capital accounts to reflect income and gains available for distribution (or available capital loss carryforward) under income tax regulations. The tax character of distributions paid during the year and the tax components of net assets will be reported at the Fund's fiscal year-end.

Capital loss carryforward is calculated and reported as of a specific date. Results of transactions and other activity after that date may affect the amount of capital loss carryforward actually available for the Fund to utilize. The ability to utilize capital loss carryforward in the future may be limited under the Internal Revenue Code and related regulations based on the results of future transactions.

The Fund had a capital loss carryforward as of October 31, 2009 which expires as follows:

Expiration	Capital Loss Carryforward*
October 31, 2016	\$25,750,989
October 31, 2017	23,986,960
Total capital loss carryforward	\$49,737,949

\* Capital loss carryforward as of the date listed above is reduced for limitations, if any, to the extent required by the Internal Revenue Code.

## NOTE 9—Investment Securities

The aggregate amount of investment securities (other than short-term securities, U.S. Treasury obligations and money market funds, if any) purchased and sold by the Fund during the six months ended April 30, 2010 was \$21,168,825 and \$38,369,312, respectively. Cost of investments on a tax basis includes the adjustments for financial reporting purposes as of the most recently completed Federal income tax reporting period-end.

### Unrealized Appreciation (Depreciation) of Investment Securities on a Tax Basis

Aggregate unrealized appreciation of investment securities	\$ 31,140,603
Aggregate unrealized (depreciation) of investment securities	(17,095,970)
Net unrealized appreciation of investment securities	\$ 14,044,633

Cost of investments for tax purposes is \$160,783,327.

(a) Calculated using average shares outstanding.

(b) Includes adjustments in accordance with accounting principles generally accepted in the United States of America and as such, the net asset value for financial reporting purposes and the returns based upon those net asset values may differ from the net asset value and returns for shareholder transactions. Does not include sales charges and is not annualized for periods less than one year, if applicable.

(c) Portfolio turnover is calculated at the fund level and is not annualized for periods less than one year, if applicable.

(d) Ratios are annualized and based on average daily net assets (000's omitted) of \$56,932, \$10,406, \$10,104, \$1,876, \$2,540, \$17,370 and \$71,845 for Class A, Class B, Class C, Class R, Class Y, Investor Class and Institutional Class shares, respectively.

(e) Includes litigation proceeds received during the period. Had the litigation proceeds not been received, net gains (losses) on securities (both realized and unrealized) per share would have been \$1.30, \$1.25, \$1.25, \$1.28, \$1.31, \$1.31 and \$1.30 for Class A, Class B, Class C, Class R, Class Y, Investor Class and Institutional Class shares, respectively and total returns would have been lower.

(f) Commencement date of October 3, 2008.

(g) Annualized.

# Calculating your ongoing Fund expenses

## Example

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, which may include sales charges (loads) on purchase payments or contingent deferred sales charges on redemptions, and redemption fees, if any; and (2) ongoing costs, including management fees; distribution and/or service (12b-1) fees; and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period November 1, 2009 through April 30, 2010.

## Actual expenses

The table below provides information about actual account values and actual expenses. You may use the information in this table, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the table under the heading entitled "Actual Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

## Hypothetical example for comparison purposes

The table below also provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return.

*The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.*

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales charges (loads) on purchase payments, contingent deferred sales charges on redemptions, and redemption fees, if any. Therefore, the hypothetical information is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

Class	Beginning Account Value (11/01/09)	ACTUAL		HYPOTHETICAL (5% annual return before expenses)		Annualized Expense Ratio
		Ending Account Value (04/30/10) <sup>1</sup>	Expenses Paid During Period <sup>2</sup>	Ending Account Value (04/30/10)	Expenses Paid During Period <sup>2</sup>	
A	\$1,000.00	\$1,168.30	\$ 7.80	\$1,017.60	\$ 7.25	1.45%
B	1,000.00	1,166.10	11.82	1,013.88	10.99	2.20
C	1,000.00	1,166.10	11.82	1,013.88	10.99	2.20
Y	1,000.00	1,170.20	6.46	1,018.84	6.01	1.20
Investor	1,000.00	1,170.40	7.80	1,017.60	7.25	1.45
Institutional	1,000.00	1,173.20	4.04	1,021.08	3.76	0.75

<sup>1</sup> The actual ending account value is based on the actual total return of the Fund for the period November 1, 2009 through April 30, 2010, after actual expenses and will differ from the hypothetical ending account value which is based on the Fund's expense ratio and a hypothetical annual return of 5% before expenses.

<sup>2</sup> Expenses are equal to the Fund's annualized expense ratio as indicated above multiplied by the average account value over the period, multiplied by 181/365 to reflect the most recent fiscal half year.

### Important Notice Regarding Delivery of Security Holder Documents

To reduce Fund expenses, only one copy of most shareholder documents may be mailed to shareholders with multiple accounts at the same address (Householding). Mailing of your shareholder documents may be househanded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please contact Invesco Investment Services, Inc. at 800 959 4246 or contact your financial institution. We will begin sending you individual copies for each account within 30 days after receiving your request.

### Fund holdings and proxy voting information

The Fund provides a complete list of its holdings four times in each fiscal year, at the quarter-ends. For the second and fourth quarters, the lists appear in the Fund's semiannual and annual reports to shareholders. For the first and third quarters, the Fund files the lists with the Securities and Exchange Commission (SEC) on Form N-Q. The most recent list of portfolio holdings is available at [invesco.com/completetrholdings](http://invesco.com/completetrholdings). Shareholders can also look up the Fund's Forms N-Q on the SEC website at [sec.gov](http://sec.gov). Copies of the Fund's Forms N-Q may be reviewed and copied at the SEC Public Reference Room in Washington, D.C. You can obtain information on the operation of the Public Reference Room, including information about duplicating fee charges, by calling 202 551 8090 or 800 732 0330, or by electronic request at the following email address: [publicinfo@sec.gov](mailto:publicinfo@sec.gov). The SEC file numbers for the Fund are 811-01424 and 002-25469.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, from our Client Services department at 800 959 4246 or at [invesco.com/proxyguidelines](http://invesco.com/proxyguidelines). The information is also available on the SEC website, [sec.gov](http://sec.gov).

Information regarding how the Fund voted proxies related to its portfolio securities during the 12 months ended June 30, 2009, is available at [invesco.com/proxysearch](http://invesco.com/proxysearch). The information is also available on the SEC website, [sec.gov](http://sec.gov).

If used after July 20, 2010, this report must be accompanied by a Quarterly Performance Review for the most recent quarter-end.
